

Why do you have to validate your ticket or your travel card?

Validating your ticket helps accurately count the number of passengers using network routes. These data help the Lignes d'Azur team to continuously adapt times and frequencies of all routes as part of their ongoing quest to better meet passenger needs.

What you need to know about paying fines:

People without a valid address in France are required to pay the fine on the spot (either in cash or by credit card).

People who can prove they have a valid address in France may also pay the fine on the spot.
